Great Falls MT 59401

RECEIVED NOV 10 2016

SUBJECT: Unclassified Use Permit

Concerning the Fox Solar Project, we are against the changing of zoning (SR-1) (or a portion thereof) to allow Cypress Creek Renewables to build a solar project.

Our opposition to this project has been addressed to the county commissioners and a copy of our letter forwarded to the Public Works Director and Mitch Tropila (candidate for county commissioner).

Again: We invested in our land and home in 1967 in Rolling Hills (35 Comanche Trail) with the expectation it would always be a residential area. Now a portion of that area is being threatened by an Unclassified Use Permit allowance by the Zoning Board of Adjustment to be changed to commercial/industrial.

We trust our county government will uphold the long established zone (residential) and not allow re-zoning to negatively affect such a large area. Only a few individuals interested in commercial development would profit. There are agricultural, industrial parks and open areas that would be more suitable for the project.

Please represent the majority in this issue.

Sincerely

FRED OLDS
